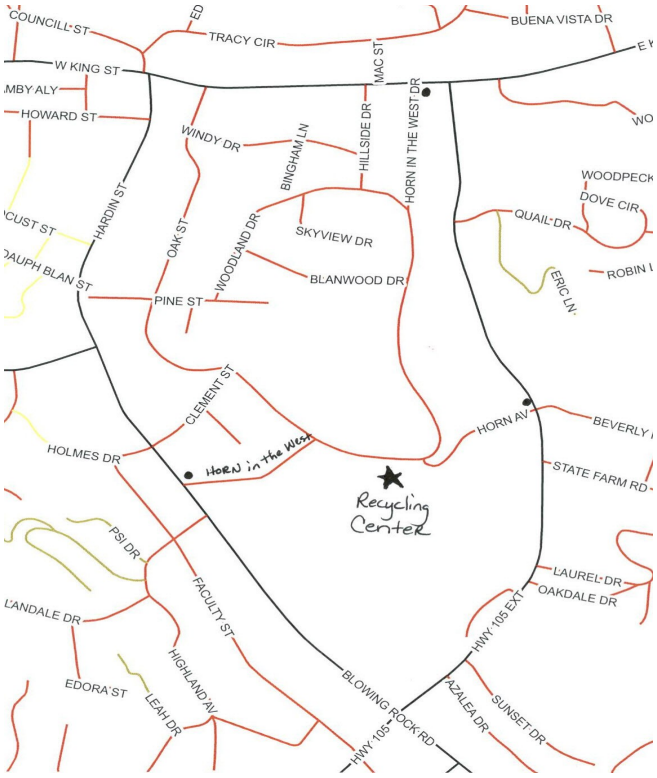
TOWN OF BOONE'S RECYCLING CENTER PILOT PROGRAM

ATTENTION!

ALL OFF-CAMPUS STUDENTS & APARTMENT DWELLERS

Due to North Carolina's recent statewide **PLASTIC BOTTLE BAN**, the Town of Boone is initiating a two-month pilot program for a recycling drop-site location for recyclables. This program will provide a convenient in-town recycling center for Boone citizens who live in multi-family complexes that do not provide a plastic bottle recycling option. The recycling center will be conveniently located in the center of Town in the Horn in the West Dr. lower parking lot on Horn in the West Drive (see map below).

Recyclable items accepted at this site will be as follows:



Plastics: All plastic bottles & all plastics with a #1 or #2 symbol on them

Clear Glass }All food jars
Brown Glass }& beverage
Blue/Green Glass } bottles

Aluminum/Steel Cans: All food & Beverage cans

Paper: Newspaper, inserts, magazines, catalogs, phonebooks, junk mail

Pasteboard: Cereal, beverage, dry food & shoe boxes, toilet paper & paper towel rolls

The Recycling Center will be in place on Wednesday, Oct.14th and the pilot will continue through the middle of December. At that time an assessment will be made to determine the possibility of a permanent center.
